**SARSAPARILLA**

**READ, REFLECT, DECIDE.**—The virtues of Sarsaparilla have been celebrated for more than two hundred years, during which long period it has been in more or less repute—every thing, however, depends upon its mode of preparation, and unless taken in considerable quantities, and persevered in for some time, it is perfectly useless. When properly prepared and administered, it is a sovereign remedy in Rheumatic affections, Scrofula, and all cutaneous complaints, such as obstinate eruptions of the skin, pimples, or pustules on the face, biles which arise from an impure habit of body, scaly eruptions, syphilitic complaints, mercurial diseases, ulcers, diseases of the liver, general debility, and all impurities of the blood. The truth of these remarks have all been tested and declared, by some of the most eminent French and English chemists and physicians—among the former are Lavoisien, Chaptal, Pelletier, and others, of Paris, and among the latter, Sir Astley Cooper, Sir John Home, Abernethy, and Letsom, in London.

Wallace's Concentrated Syrup of Sarsaparilla, now offered to the public, contains not only the virtues of this particular article, but also that far famed wood, called the Wood of Life, and among other important additions, forming altogether that well known composition under the name of Liscon Diet Drink, a medicine peculiarly calculated for the complaints above enumerated. The manner of preparing the Sarsaparilla by Dr. Wallace, having been made known to Dr. Harrington, Dr. Smith, Dr. Parker, Dr. Goodrich, Dr Adams, and Dr. Carter, of the different cities in the U. States they have evinced their approbation of it, by invariably prescribing it to their patients, and recommending it to their professional brethren; all doubts and cavils therefore upon the superior merits of this composition must cease forever, but in order to satisfy the most incredulous, the particular mode of preparation is here subjoined, by which it will be perceived that it is of four times the stength of any ever before sold, it behooves the purchaser therefore *to look well to that fact* and purchase only of the proprietor's sole Agent, at the Druggist store corner of Milk and Bath streets, directly opposite Pearl street, where, for more than two years, it has met with the greatest approbation—Price $1 a junk bottle, or six for $5—each bottle sealed with the initials of the Proprietor.

Mode of Preparation. In addition to the strongest decoction of the root, there is also subjoined, the costly extract of Sarsaparilla, and the fluid extract, the former prepared by Mandee, Weaver & Mandee, of Wolvesbampton, the greatest Chemists in England, and the latter a well known Chemist in America.

☞ Remember the place of sale, at the Druggist store corner of Milk and Bath streets, opposite Pearl st.

N. B. The above preparation is the very best medicine which can be used during, and on the approach of Spring.

**PHELPS'S ARCANUM.**—For the cure of the worst diseases of the skin, ulcerous sores, scrofula or king's evil, syphilitic and mercurial diseases, rheumatism, white swellings, liver affections, costiveness of the bowels, general debility &c. And such diseases as are caused by an impure or bad condition of the blood. It is likewise particularly recommended to those whose constitutions are broken by habits of luxury and intemperance, the injudicious use of quinine and mercury, and badly cured diseases, by unskilful or neglected medical treatment, and all those whose lungs and chest are diseased by remote causes in the system.

The Arcanum has proved itself by years of experience far superior in its effects to the Panacea of Swaim, Catholicon of Potter, or the French Robs. In testimony of the above statement, we refer to the opinion of Dr Sam'l L. Mitchell, of New York, Dr Jones of Baton Rouge, Dr Archer of Virginia, Dr Godman of Philadelphia, who have investigated the properties and efficacy of the article, and affirmed it as being superior to all medicines in their knowledge, for the removal of the diseases above named. Price $2 per bottle.
Boylston, Mass. Aug. 1st, 1835.

In the year 1830 I requested Dr Phelps to visit a daughter of mine, aged about 15 years, having a distortion of the spine or back bone, and whose general health had always been feeble.

The curvature of the spine, at that time, had acquired a hopeless and singularly disfigured appearance, and the Sternum or breast bone corresponded with the distortion, presenting to the beholder a deformity calculated to excite the deepest sympathy. From the first appearance of this disease, I had solicited the most skilful of the profession, whose attendance, various prescriptions and remedies were unattended with success or benefit—in a word, the progressive march of the disease bid defiance to the ingenuity of skill, and the power of medicine.

It was under these circumstances that we commenced the use of the Arcanum, which was perseveringly administered for several months. Her general health soon began to improve, and the progress of the disease was gradually arrested by this medicine only, and the use of the salt water bath.

From this period, her strength and energies of mind and body were evidently improving, and the deformity has subsided with the growth of years. At this time, which is more than five years since, we adopted the treatment of Dr Phelps, my daughter is in the enjoyment of good health, to our astonishment and admiration. She has been a teacher or instructress for two years past. M. DAVENPORT.

The great demand for the Arcanum, and its remarkable effects in chronic dishases, give it the decided preference to any other medicine. See Medical Advertiser.

DR CHAPMAN'S COUGH MIXTURE.

This "Cough Mixture" is highly recommended by N. Chapman, M. D. Professor of the Institutes and Practice of Medicine, &c. in the University of Pennsylvania, as a superior article. Price 50 cents.

## POETRY.

### BEAUTY'S DWELLING.

Minstrels sing of Beauty's power,
Sages yield to Beauty's spells,
Warriors quail 'neath Beauty's eye;
Prithee say where Beauty dwells.

Is she seated on the brow?
Or the graceful form so round?
'Mid the roses on the cheek
Is not Beauty blushing found?

Is she seen in wreathing curls?
Does she smile in sparkling eyes,
Dancing 'neath the ivory lid?
Ah! 'tis *there* that Beauty lies!

No, the eye and cheek can fade—
Beauty owns immortal grace;
Throned she sits within the *Soul*,
*That* is Beauty's dwelling place.

### A WELL WRITTEN PASSAGE,

From Miss Martineau's "Society in America."

"The other ground of hope of which I spoke as being inferential, arises out of the imaginative political character of the Americans. They have not yet grown old in the ways of the world. Their immediate fathers have done such a deed as the world never saw; and the children have not yet passed out of the intoxication of success. With far less of vanity and presumption than might have been looked for from their youth among the nations, with an extraordinary amount of shrewdness and practical talent shared among individuals, the American people are as imaginative as any nation I happen to have heard or read of. They reminded me every day of the Irish. The frank, confiding character of their private intercourse, the generous nature of their mutual services, the quickness and dexterity of their doings, their fertility of resource, their proneness to be run away with by a notion, into any extreme of absurdity—in all this, and in every thing but their deficiency of moral independence, (for which a difference of circumstances will fully account,) they resemble the Irish. I regard the American people as a great embryo poet: now moody, now wild, but bringing out results of absolute good sense: restless and wayward in action, but with deep peace at his heart: exulting that he has caught the true aspect of things past, and at the depth of futurity which lies before him, wherein to create something so magnificent as the world has scarcely begun to dream of. There is the strongest hope of a nation that is capable of being possessed with an idea; and this kind of possession has been the peculiarity of the Americans from their first day of national existence till now. Their first idea was loftier than some which have succeeded; but they have never lost sight of the first. It remains to be at intervals apprehended anew; and whenever the time shall arrive, which cannot but arrive, when the nation shall be so fully possessed of the complete idea as by a moral necessity to act it out, they will be as far superior to nations which act upon the experience and expediency of their time as the great poet is superior to common men.

This time is yet very far distant; and the American people have not only much to learn, and a painful discipline to endure, but some disgraceful faults to repent of and amend. They must give a perpetual and earnest heed to one point; to cherish their high democratic hope, their faith in man. The older they grow the more must they "reverence the dreams of their youth." They must eschew the folly and profaneness so prevalent in the old world, of exalting man, abstractedly, and individually, as a piece of God's creation, and despising men in the mass. The statesman in a London theatre feels his heart in a tumult, while a deep amen echoes through its chambers at Hamlet's adoration of humanity; but not the less when he goes home, does he speak slightingly, compassionately, or protectingly, of the masses, the population, the canaile. He is awe-struck with the grandeur of an individual spirit, but feels nothing of the grandeur of a congregated million of like spirits, because they happen to be far off. This proves nothing but the short-sightedness of such a man. Such shortness of sight afflicts some of the wisest and best men in the new world. I know of one who regards with a humble and religious reverence the three or four spirits which have their habitations under his roof, and close at hand; who begins to doubt and question, in the face of far stronger outward evidence of good, persons who are a hundred miles off; and has scarcely any faith left for those who happen to be over the sea. The true democratic hope cannot co-exist with such distrust. Its basis is the unmeasured scope of humanity; and its *ratianale* the truth, applicable alike to individuals and nations, that men are what they are taken for granted to be. "Countrymen," cries Brutus, dying,

"My heart doth joy that yet in all my life,
I found no man but he was true to me."

The philosophy of this fact is clear: it followed of course from Brutus always supposing that men were true. Whenever the Americans, or any other people, shall make integrity their rule, their criterion, their invariable supposition, the first principles of political philosophy will be fairly acted out, and the high democratic hope will be its own justification.

* * * * * * *

I might add their matter-of-fact credulity, strongly resembling romance. As a specimen of the *quizzing*, common with regard to the Germans, I gave an anecdote. At the time when the struggle between Adams and Jackson, was very close, a supporter of Adams complained to Mr W. that it was provoking that somebody had persuaded the Germans in Pennsylvania that Mr Adams had married a daughter of George III; a report which would cost him all their votes. Mr W. said, "Why do you not contradict it?" "O," replied his friend, "you know nothing of those people. They will believe every thing, and unbelieve nothing. No; instead of contradicting the report, we must allow that Adams married a daughter of George III; but add that Jackson married two."

## BOSTON MORNING POST.

FRIDAY, JUNE 23, 1837.

*Respect Due to Old Age.*—As there is a particular species of courtesy due to the different sexes, and the different professions, *so there* is a species of courtesy that ought always to be observed towards those who are in the decline of *years*. We are all in the habit of paying a certain degree of external deference to gentlemen of the clerical profession as something which, by custom, is due to their order. Our external deference bears a greater proportion to our real respect, than it does in the case of any other class of men. That species of courtesy which custom awards to the clergy, benevolence commands us to practice towards the aged of all classes. An old man, it is true, is not always personally entitled to real respect, but his age is entitled at least to a show of reverence. He has arrived at a period of life when, though his vices cannot be pardoned, yet his foibles ought to be endured, and his peculiarities respected. This is a species of solace which no benevolent man can refuse to grant them, when almost all their capacities for enjoyment have decayed. Though an old man be unworthy of perfect esteem, his age is entitled to reverence, and we must show that respect for his grey hairs which we should not condescend to manifest to a young man under the same circumstances.

t is not true that we ought never to be respecters of persons. If we are called by necessity to resent an offence given by an old man, we are under obligations to avoid all possible rudeness and severity on account of his years; as in resenting an insult from a woman, an honorable man will always pay a proper regard to her sex. An old man's ignorance deserves our candor—his follies deserve our compassion—his vices alone deserve chastisement. It is said that one prominent mark of distinction between civilized and barbarous nations, is the greater respect which is manifested by the former towards their women. This is not more true than that the general tone of moral and benevolent feeling existing in any community may be estimated by the degree of politeness and deference which is shown to the aged in the common intercourse of life.

*Paper Money and Specie.*—According to the late New York papers, specie is constantly shipping from that port to England; and they say that *over* TEN MILLIONS in gold and silver have been thus sent out of the country from New York alone, since the stoppage of specie payments by the banks, and the substitution of the RAG CURRENCY. At this rate there will not be any coin remaining here in the course of a few months.

Exchange on London, say these papers, sells at an advance of 20 to 22 per cent.;—dollars at 13 per cent., and sovereigns at 25 per cent. "These rates (it is added) are beyond what was ever known, even during the last war." In plain English, the WHIG CURRENCY (*paper money*) has already DEPRECIATED THIRTEEN per cent. or more! This is a more rapid fall, we believe, than the old 'paper money" of the Revolution ever experienced. This WHIG EXPERIMENT, their bank note currency, which they say is far preferable to gold and silver, bids fair to be, very soon, worse than the old "*continental money*." The whigs probably intend to restore the "OLD TENOR" of our grandfathers; and, perhaps, in their zeal for the public good, will go beyond even that!

At the time of the preconcerted stoppage of all the whig banks, nearly the whole of the specie of the nation was in their vaults. If such amounts are shipped and shipping to England, this specie must have been purchased of the banks. Thus they are making a very pretty speculation out of the public by failing—*buying in their own bills at 13 to 25 per cent. discount!!* Have the whig banks in Boston commenced this profitable trade yet?—or are they waiting for a greater discount, not being satisfied with so *trifling a profit*? They will unquestionably gain money by waiting.

We would ask our honest farmers what they think of this WHIG EXPERIMENT? Are they satisfied with a substitution of RAG MONEY for gold and silver; a "*paper money*," which has depreciated 13 per cent. in four or five weeks? Their produce, it is true, may bring nearly the same *nominal* price as before; but of what consequence is a *nominal* price? A name is nothing. If Congress were to pass a law, calling a cent a *dollar*, this "dollar" would still be worth only a cent. The *value* is the thing, the *worth of it in specie*, not the name it bears.

The currency which the democratic party want, that which they have been advocating in Congress, and endeavoring to establish and sustain, is a SPECIE currency. This the whigs have been constantly opposing, ridiculing gold and silver money, and declaring that paper money, bank bills, are far superior. They have *purposely prevented* the introduction of specie as the circulating medium. What is the consequence? The whig banks, with millions of specie in their vaults, have all failed, as Gen. Jackson predicted. The people are left with the worthless RAGS upon their hands, and the banks are buying in their bills, and paying off their deposites, with this very specie, at a discount of thirteen and 25 per cent.! The farmers, the mechanics, the laboring classes, are to *lose* by this general whig bankruptcy; while the rich men, the bank directors and the bank stockholders, are making a *grand speculation* at their expense, by buying up their own depreciated paper! An excellent whig trick! Huzza for the WHIG CURRENCY, RAG MONEY!!

"*Attila,*" is the title of a new novel by the author of "One in a Thousand," "The Gipsy," &c. (Mr James.) We have but just dipped into it here and there, and think from what we have read, and the history of the hero upon which it is founded, that it must be an interesting work. The N. Y. Gazette, a better authority in such matters than in politics, says it is full of well-drawn character and powerful writing. Attila was the greatest barbarian warrior whose deeds are recorded in history—his love for the gay Honora, and afterwards his devotion to the beautiful Ildico, and his singular death, are all events affording a fine scope for romantic narration and embellishment. This gallant hero extended his dominion over all the people of Germany and Scythia, and the Eastern and Western Emperors paid him tribute. The Vandals, the Gepidæ, the Ostrogoths, and a portion of the Franks, united under his banners. His army consisted of 7 or 800,000 men. When he died his body was enclosed in three coffins—the first was of gold, the second of silver, and the third of iron. But we are making too long a story. It is published by the Harpers, who have lately added another excellent volume to their FAMILY LIBRARY—"The Circumnavigation of the Globe"; giving a comprehensive history of the various circumnavigations of the globe, and describing the progress of discovery in Polynesia. At Weeks, Jordan & Co's., and the bookstores generally.

*The Whiggies* need n't be alarmed because Miss Martineau has boxed their governor's ears a little, for he is acknowledged by friend and foe to be the best *Orationer* in New England—and furthermore, the old lady makes herself ridiculous by attempting to sneer at the size of our "stately trees," when they are as much larger as any which grow upon her Island as America is larger than Great Britain. The Baltimore Sun shadows forth her portrait in the following flattering style:—

"She was old, very badly pock-marked, as deaf as a badger, and could scarcely render herself intelligible on any subject. Her education was evidently gross and vulgar, and her early associations, it was plain to be seen, had not been refined or liberal."

*Miraculous Preservation.*—Among other remarkable incidents connected with the inundation at Baltimore, it is stated by the Republican that on the following day a cradle, with a living child in it, was picked up in the basin, floating down stream. The child is stated to have been quite composed, and entirely unconscious of danger, at the time it was discovered, and rescued from its perilous situation.

*The Governor of Connecticut* holds to the *ultra federal doctrine* that a Legislature cannot repeal a charter granted by a former Legislature!

☞ The Salem Advertiser and Gloucester Democrat speak in a highly commendatory manner of the pamphlet lately published in this city entitled "*The Times.*"

*Mr Rowley*, of Pearl Place, has invented an excellent liquid for cleansing pictures, which is easily and safely applied.

"Madam, I will thank you for that goose," cooly said a gentleman, who, in trying to carve one of these tough birds unfortunately sent it entirely out of the dish, and into the lady's lap opposite to him.

## BY THURSDAY'S STEAMBOAT MAIL.

Stocks are advancing a little in New York. On Wednesday U. S. Bank sold for 108—B. and P. R. Road 102 1-2—Worcester 98—Canton Co. 45 3 4.

*State Loan of Two Hundred Thousand Dollars.*—The Harrisburg Telegraph says, that the loan of $200,000 authorised by a resolution of the Legislature of 1835—36, has been taken by the Bank of the United States, at an interest of 4 per cent. to be paid in monthly instalments of $50,000. What does the state accept, Mr Biddle's *promises* at ten per cent. discount, and thus defraud the people out of TWENTY THOUSAND DOLLARS to benefit a corporation, or demand it in *legal* currency?

*New Navy Yard.*—Commissioners who were appointed sometime last fall to examine the several harbors on the Southern Atlantic coast, with a view to the establishment of a Navy Yard by the General Government, have decided in favor of Brunswick, Georgia.

*Florida.*—The Baltimore Gazette contains a letter dated June 8th, at Tampa Fee, conveying the unpleasant intelligence of the immediate probable resumption of hostilities by the Indians, two of the Chiefs having suddenly withdrawn, taking all their forces, and retired to the Swamps, covering their retreat by a band of two hundred hostiles suddenly brought in for that purpose.

From the Washington Globe.

Official reports to the 5th June have been received from Tampa Bay. These reports state that on the night of the 2d instant, the Micausaukies, about two hundred in number, surrounded the camp of Micanopy, Jumper and Cloud, and forced them away. The orders from Sam Jones and Oscola were not to molest any white man.—Micanopy refused to go saying that he had signed a treaty, and should hold to it. He was answered that if he did not go his blood would be spilt. His reply was to kill him there and to do it quickly: they, however, forced him on his horse and carried him off. Jumper having sold all his horses, they forced him to walk. The sincerity of Micanopy and Jumper cannot be doubted. Cloud, however, was always a traitor, and was the only one who had been warned of what was to take place.

General Jesup states that the scheme of emigration has entirely failed, and that he shall immediately discharge the vessels which had been employed to carry the Indians off. He does not anticipate a renewal of hostilities. Measures have been taken to place the troops in positions so as to cover the country.

A piratical schooner was captured off Cape Francis, Madonis, on the 2d of May, and taken into St. Jago de Cuba.

The small pox continued to prevail in some of the Islands, while in others it had very much abated. The St. George's Chronicle, of the 6th May, reports three hundred and forty-one cases, as then under treatment. Deaths week ending 5th 13.

The following is a copy of the letter of the Postmaster General to Mr Key, read before the Circuit Court on Saturday last:—*Globe.*

POST OFFICE DEPARTMENT,
*June* 17, 1837.

Sir:—You were kind enough, at my request, to induce the Circuit Court for this District to suspend proceedings for a few days in the case of their Mandamus against me, as Postmaster General, to give time to prepare my reasons for declining to comply with their command.

Every day's inquiry and consideration magnifies the importance of the principles involved in this proceeding, and tends to the conclusion that it necessarily brings into discussion the constitutional and legal powers of two separate and independent departments of the Government.

As the question interests every executive officer residing within the District as well as myself, and affects the character of the entire Executive Department, I have not deemed it right to suffer myself to be governed altogether by my own impulses or opinions, and have taken the advice as well of my official superior as of the constitutional law officer of the Government, in relation to my duty to appear before the Circuit Court. It is their opinion that an appearance, with the avowed and sole object of contesting the jurisdiction of the Court, compromits no principle involved in the controversy, and is a proper mode of resistance to the claims of power set up in this case.

You are, therefore, requested and instructed to appear in the Circuit Court in my behalf, as Postmaster General, distinctly announcing to the Court that you do so only for the purpose of contesting their jurisdiction, and that you are expressly instructed not to plead to, argue, or notice, as counsel, any point or fact in the case which does not affect that question.

You are aware that the incessant devotion to the subject during the time allowed, has not enabled me to prepare the materials necessary to exhibit the grounds on which I disclaim the jurisdiction of the Court over the Postmaster General, or any other executive officer acting in his official capacity. It cannot be the wish of the Court to precipitate their action in any case, and, least of all, in one of high constitutional law, affecting their own rights and powers, as well as those of another department of the Government; and I leave it with you to suggest such further delay as may seem to you, with your present knowledge of the matter, to be necessary to complete the preparation of the case.

With high respect,
Your obedient servant,
AMOS KENDALL,
*Postmaster General.*

F. S. KEY, Esq.
*U. S. District Attorney.*

We insert below a copy of the regulations respecting the deposites of public money in the hands of disbursing officers of the United States. By the direction of the President, copies of those regulations were duly communicated to the other departments.—*Globe.*

TREASURY DEPARTMENT,
*May* 26, 1837.

To the PRESIDENT OF THE UNITED STATES:

SIR: In consequence of the recent suspension of specie payments by most of the banks in which the disbursing officers of the Government made their deposites of public money, the undersigned has deemed it proper to take the opinion of the Attorney General on the effect of that measure upon those deposites, and in consequence thereof to submit the following recommendation to the President:

1st. That all those officers be instructed by the several departments to which they belong to make their subsequent deposites in those banks only which pay specie, if such can conveniently be resorted to for that purpose.

2d. That in the event of there being none such, they are to be instructed to deposite in those banks which are willing to give, and do give, such written obligations as the nearest District Attorney of the United States may deem sufficient and safe to secure the return of the deposites punctually when wanted, in such kind of money as was placed in said banks; and

3d. That the existing deposites of those officers, whereever not now in such banks, and not soon expended, be withdrawn, and placed within them as far as practicable.

Respectfully submitted.
LEVI WOODBURY,
*Secretary of the Treasury.*

Approved:
M. VAN BUREN, *President.*

Mr Webster is now fairly under sail as a candidate for the next presidency. If he should not happen to be shipwrecked on the passage, there is no question that the democrats will row him high up the longest and saltest branch of Salt River.—*Lowell Advertiser.*

## MUNICIPAL COURT.

*Stearns's Case—Concluded.*—His Honor Judge Thacher, at the opening of the Court yesterday morning, commenced his charge to the Jury, and occupied an hour an a half in delivering it. Throughout the main points, which bore against the Defendants, were presented to the Jury with peculiar emphasis, but at the conclusion his Honor instructed them, that if they were of opinion, that it was not proved, that Stearns knew of the conditions upon which Winslow obtained the notes from Gordon & Stoddard, and consented and aided in obtaining them, then the Defendants ought to be acquitted; and so, if they were of opinion that Winslow did not intend to defraud G. & S. at the time he obtained the notes, whatever he might have done afterwards. The Jury were out half an hour, and returned a verdict of *Not Guilty.*

For the first time during the trial, Mr Stearns exhibited emotion, and shed tears. Mr Winslow, who had manifested considerable feeling throughout the trial, was remarkably composed when the Jury came in, and when their verdict was declared, merely observed, that he already stood acquitted before his own conscience, of any intention of wronging Gordon & Stoddard. When the Jury first went out, they stood eight for acquitting, and four doubtful. There are two other indictments pending against Mr Winslow—one for obtaining the notes, which have been the subject of the present prosecution, for conspiracy, by false pretences, and another for obtaining notes to the amount of $5000, from Messrs Whiton & Marsh, by such pretences. In both cases, Mr Stearns will be a witness for Mr Winslow, and, as such, will probably disclose all the circumstances which have led to the present prosecution.

POLICE COURT.—*The New Sunday Law* is now being put in force. *Ezra Jones*, keeper of the Park Hall, was convicted of selling spirituous liquors on Sunday the 11th inst. and fined $20 00, and costs. He appealed, and gave bonds to prosecute the appeal.

*John Tilton*, Innholder in Ann street, same offence and fine, also appealed.

*David Cummings*, Innholder in Ann street, for a similar offence, was fined $20 00, and costs, and paid it.

*Thomas Chick*, keeper of the Globe Hotel, fined the same as the preceding, and in default of funds, committed.

☞ We hope that the discussion of the subject of making the office of Sheriff elective by the people, will be effectually agitated before the meeting of the ensuing Legislature. It is, perhaps, the most important of the county offices, and should always be filled by a man possessed of common sense, common courtesy, and undeviating impartiality.

*Balloon Ascension.*—The following is Mr Lauriat's account of his voyage on Wednesday:—

"Inflated balloon, and having every thing arranged for departure, cut the cord at five o'clock, wind south west; rose directly from the garden, the numerous trees within no hindrance; thermometer 70. Passing over the marsh, found it necessary to discharge a large quantity of ballast—the atmosphere being contaminated with sulphurated hydrogen gas, and lighter than the surrounding air; kept ascending until having reached the highest altitude, 8,500 feet, I was completely involved in the clouds, wind north west, thermometer 35; obliged to open valve and range lower to avoid the ocean; soon in sight of the earth again, having a full view of the mountains in New Hampshire and Vermont at the north—of Cape Cod, Nantucket and the Vineyard at the south, and immediately under and around me the numerous cities and towns of the State, forming a landscape of surpassing grandeur. Indications of approaching storm; effected a safe landing 10 miles from Chelsea, and 2 from Davenport's Hotel, Lynn. Kindly assisted by some of our Salem, Lynn and Danvers friends, made a short trip; but a very interesting and agreeable one."

☞ We have several communications from "Quill" and others, which will appear soon. Our correspondents must not judge that, from a delay in the publication of their favors, they are not properly appreciated. We say of them as Randolph did of his constituents—"never man had so good ones."

For the information of the watchmen stationed about the wharves, we are authorised to say that they are entitled to 25 per cent. upon all smuggled goods stopped by them.—*N. Y. Star.*

*Affection.*—An Illinois editor says he lately met a man who was carrying his hand in a sling, and who, being inquired of for the reason, replied that one of the candidates had squeezed it so hard that he had no feeling in it since.

*The Present Cabinet*, not exactly suiting the whigs, they are forming one which will please them better—when they get it completed we will publish it for the *amusement* of our readers.

☞ *The Herald* misapprehends us entirely—we did not impute the language animadverted upon to Mr Brown, but to one of his deputy marshals. The Herald does us no more than justice in saying that we have the good of the society at heart.

*Impromptu on a beautiful lady wishing to ascend in a balloon.*

Forbear, sweet girl, your scheme forego,
And thus our anxious troubles end,
That you will mount full well we know,
But greatly fear you'll not descend.
When angels see a mortal rise,
So beautiful, so pure and fair,
They'll not release her from the skies,
But keep their sister angel there.

*The news from England* is in general thought well of. It is better, or rather less bad, than was expected. The failures which had occurred were only of houses in partnership with houses which had failed here, or in so intimate connexion that their suspension was a matter of course. One house, Roskell, Ogden & Co, whose suspension had been previously announced, are now announced as having resumed payment. The great American houses are all going on, and daily cancelling large amounts of acceptances in favor of houses on this side. The revival in the price and demand for cotton shows that there is yet an opinion left in England, that cotton may be wanted. Money continued plenty, a fact of great importance, and the rate of foreign exchanges favorable to England.—*N. Y. Jour. Com.*

*Paddy's Description of "The Drop."*—"Faith, I hear it's a bad chance with any poor fellow who comes here of late, since the bad times. I hear that they come in at the door, and go out at the window with a balkinny that has a very unsafe bottom to it; and for fear they should hurt themselves tumblin' through it, they tie a bit of sthring to them, to break the fall."

*"How you Talk."*—Mr Jonathan Dobbs, of Skowhegan, Me., gives notice, that whereas his wife Nancy has been in the habit of getting "spificated," and whereas, as she one night, in the month of April, came home from a quilting "exceedingly spificated," and got into the wrong end of the bed, and kicked his teeth out before morning, he has resolved not to live with her any longer. He therefore cautions the public not to trust the said Nancy on his account, as he is determined not to pay any debts of her contracting. This might have answered all the demands of even-handed justice; but Mr Dobbs, not yet content, winds up his proclamation by informing "Nancy Dobbs aforesaid," that if she attempts to enter his house, he will lick her with an oxgoard.—*Fall River Patriot.*

*Examination at West Point.*—The Board of Visiters closed their examination at West Point on Saturday, and most of the members left on Monday. The committee on improved fire arms, of which Gen Fenwick, President of the Board of Ordnance is Chairman, commenced their examination on Monday. The performances of the Cadets were very respectable, but were not considered quite so good as in some former years.—*Daily.*

Star.*

*Mr Bristow*, at his rooms, in Washington street, continues to do all that he promises in the way of teaching writing, and in some cases, even more. There is no excuse for bad writers in these times, when they can be taught to improve for so little money. Mr Bristow's rooms are central, convenient and comfortable.—*Courier.*

*The crops* are represented to be in a flourishing condition throughout the country. The soil when properly cultivated, affords real national wealth. This the Banks can never do.—*Salem Adv.*

Sheriff Sumner has grown more *putchiky* than ever.—*Traveller.*

We found the Court room, yesterday afternoon, crowded. All the Reporters' seats were occupied by spectators, and Sheriff Sumner as polite as a snapping turtle.—*Herald.*

*Temperance in Ward Three.*—A meeting of the friends of Temperance, in Ward 3, was holden on Wednesday evening, 21st inst., at the Baptist Church, in Union street—D. R. Sheafe, Esq., in the Chair. The object of this meeting, as stated by Rev Mr Johnson, an indefatigable friend of temperance, was, to circulate the Temperance Journal, for one year, in every family throughout the city, at the rate of ten cents a copy per annum. To carry this enterprise into execution, (there being 10,000 families in the city,) $1,000 would be requisite—i. e. about $80 from each Ward. The meeting was addressed by several gentlemen. After which, on motion of Ruggles Slack, Esq., it was

*Voted*, That we highly approve of the effort now being made by the Rev Mr Johnson, to circulate the Temperance Journal in every family throughout the city, for the space of one year.

HENRY UPHAM Secretary.

## *Syphilitic Complaints.*

FOR the infallible cure of all the stages of the *Syphilitic Disease*, from a slight infection, to the most virulent stage of the disorder, even when attended with Headache, Pain in the Bones, Blotches, Sore Throat, Enlargement of the Skin and Skull Bones, Loss of Appetite, and Universal Debility &c.

**DR. HUNTER'S PILLS AND INJECTION POWDERS.**

*Continue to stand unrivalled.*

Witness the following cases of cures;

☞ A Gentleman in Thomaston, was many years afflicted (thought incurable) with ulcers in his throat, pain in his limbs loss of appetite, universal debility, and otherwise diseased; his life dispaired of, was restored to perfect health and spirits by a few boxes of these Pills.

☞ A Seafaring man, suffered so severely from this complain for two years, as to be often deprived of his rest, had pains in his limbs, sore throat, headache, enlargement of the glands of the neck, scull bone affected, a bad cough, no appetite, entirely debilitated, and considered as past relief, having tried other medicines in vain, was cured, and restored to perfect health, by a few boxes of these Pills!

☞ A young man, was recently entirely cured from a bad stage of the complaint, by using the above medicine (to less than $3 value,) after receiving the advice of several physicians, and using various celebrated medicines.

☞ An invaluable property! "I feel myself (writes a person, after using these Pills,) thoroughly cured, and believe this invaluable medicine has completely eradicated the complaint from my system; a property which I think this remedy possesses beyond any other with which I am acquainted, and is a desideratum in my view, which renders it above all price."

☞ A treatise explaining the various symptoms, with full directions, (so that persons of either sex can cure themselves) encircle each box.

*‚* Price of the Pills $1 a box—the Injection Powders and Cerate, 50 cents.

☞ Prepared from the original Recipe in MS. of the late Dr W. T. Conway by his immediate successor and the sole proprietor, T. KIDDER, of whom they may be had at his Counting Room, over No 99 Court street, corner of Hanover street, and also by his appointment of the Druggists generally Boston and vicinity. s23

**CROWN GLASS.**—The New England Crown Glass Company invite the attention of the public to their manufacture of Window Glass. They have taken the chambers over the store of Messrs Sumner & Hopkins, in School street, and are now opening an entire assortment of their glass for wholesale or retail.

The better to adopt their Glass to general use, they now divide it into 4 sections, viz: N. E. No 1, Cambridge 1 and 2, and extra.

The N. E. No 1, is composed principally of what was before termed 1st quality. The Cambridge No 1. correspond to the former 2d quality and is altogether superior to the best of the German and other Cylinder Glass. Cambridge No 2, is a good merchantable article for factories, stores, out houses, sky-lights, green houses, and buildings of the less expensive kind, and is cheaper by weight than the common Glass. The 7 by 9, and 8 by 10 come at 4 and 5 cents pr light, by the box.

The extra is a small portion selected for front parlor windows—and from the greater purity of its color, and durability of its lustre, it will command a preference at the same price, over the Dutch plate Glass.

By this certificate the purchaser may, by selecting the different qualities appropriate to the various parts of his building, obtain the glass at a great reduction from its former price—and it also supersedes the necessity for using the German Cylinder Glass, which disfigures so many of our otherwise handsome buildings.

There is no difference in the several selections in the color, thickness, and transparency of the Glass, nor in its external brilliancy; the Cambridge No 1, therefore, is as appropriate for the higher stories of the best buildings, as the extra for the parlors.

The impression has heretofore been general that Crown Glass was too costly except for buildings of an expensive character, but by a reference to their price current, it will be found that the cost of the New England Crown Glass over the Cylinder Glass, when judiciously selected, will not exceed one half to one per cent. on the cost of the building, according as it may stand alone or in the block—and there is no other manner in which an expenditure of five times the amount will add so much to the beautiful appearance of the building.

The New England Crown Glass also, by being of double thickness, is capable of withstanding violent winds, hail storms, severe jars, and cracking from contraction in cold weather—its thickness also, will make the rooms warmer by more effectually excluding the cold. Its use in the end is more economical independent of its greater beauty.

The Company have now on hand 8 to 10,000 boxes of the different sizes and selections, all of which has been opened and re-assorted with great care, and for all ordinary sizes an order can be executed within a week from its receipt.

They have also on hand, a few hundred boxes of various sizes of imperfect color, suitable for grinding and backs of buildings, which will be sold at a reduced price.

Gentlemen building, are requested to call and examine this beautiful article for themselves, before they make their contracts. By seeing an assortment of the various qualities they will be able to judge understandingly the kind adapted to their wants.

The office hours of the Agent in Boston are from 11 till 2, but in his absence Messrs SUMNER & HOPKINS are authorized to make sales J. F. HASTINGS, Agent.

**INDIGESTION, JAUNDICE AND BILIOUS COMPLAINTS.** ANDERSON'S VEGETABLE ELIXIR, *for Dyspepsia or Indigestion, Jaundice and Bilious Complaints; weakness of the Stomach and Bowels, and consequent loss of appetite; nervous complaints, headach, sour stomach, flatulence and habitual costiveness.*

This medicine is composed entirely of vegetable substances is perfectly safe in its operation, and may be given to children or persons of the most delicate habit, without the least risk of inconvenience.

The uniform success which has attended the use of it where it has been extensively used, in Boston and various other parts of the United States, and in the West Indies, attested by disinterested and highly respectable persons, affords, next to a trial of the medicine itself, the best commentary upon its virtues, and the best recommendation which can be offered to those who are unacquainted with it.

Extract of a letter received from a gentleman in Boston, who had suffered severely from indigestion for three years. 'During this time, I suffered very much from mental depression, constant pain in the head and breast, and side, sharp shooting pain over almost the whole system—the food that I ate *seemed* to pass into my lungs and there remain, giving me great pain as tended with a strong degree of heat. At times, I suffered so much from the pain of indigestion as to be confined to the bes for two or three days. During one of these most severe attacke I was induced by the advice of a friend to try your Vegetabld Medicine. In the course of a few weeks I found myself much better, and by the time I had taken two bottles, considered myself wholly free from the complaint. I continue, on the least feeling of any thing like indigestion or pressure on the stomach, to take about a table spoonful of it, which, in the course of a few hours completely restores me. It has had with me a very wonderful effect, in strengthening the stomach and invigorating the whole system, and judging by my own case, I consider it in all diseases connected with the digestive organs to be a very valuable medicine.

It has been found singularly efficacious in cases of the most obstinate headache.

It is put up in large bottles containing a pound and a half and sold at *seventy-five cents* each, by Jonathan P. Hall, Jr. No. 1, Union street, John P. Whitwell, Milk street, John I. Brown, near Boylston Market, Erastus S. Holden, near the Western Avenue, Richard A. Newell, Summer street, Boston Samuel Kidder & Co. Charlestown, E. G. Lemon, Roxbury.

**SWELLED BEAM**

THE subscriber has on hand a good assortment of he Swelled Beam Windlass Bedsteads, which, for comfort and convenience is undoubtedly the best article yet invented; its chief peculiarity is that of the Swelled Beam, the effect of which is to produce a crowning, and elastic sacking, and effectually provides against its sagaing.
